

GROW POWER[®]

, INC.

THE SOIL ENVIRONMENT CO.™

Retail Product Line

GRO-POWER®

Gro-Power®, Inc. has been manufacturing Humus based fertilizer/soil conditioner products since 1966. All of our products contain true plant-based Humus, Humic Acids and beneficial soil bacteria. These natural elements aid in improving soil texture (i.e.; aiding in breaking up clay soils, increasing moisture holding capacity in sandy soils) balancing soil chemistry and keeping plant food in forms plants can assimilate. Gro-Power® products are odor free, environmentally safe, and free of waste products, such as animal waste, poultry litter, sewage sludge or toxic mine tailings. All products contain non-staining Iron, Manganese & Zinc. Gro-Power® products are available to home gardeners through better nurseries and garden centers.

Retail Product Line

Gro-Power® 5-3-1

Our original product. Use for soil preparation before planting and use for feeding throughout the growing season. Gro-Power® 5-3-1 is all-purpose and can be used on lawns, vegetables, flowers, shrubs and trees.

70% Humus, 15% Humic Acids and micronutrients.

Sizes Available:

8.8# Bag • 20# Bag • 40# Bag

Gro-Power® Plus 5-3-1

Our most popular product. Same as Gro-Power® 5-3-1, but with a commercial grade Soil Penetrant added. Excellent for soils that are high clay, heavily compacted or have high salt content.

70% Humus, 15% Humic Acids, micro-nutrients and soil penetrant.

Sizes Available:

8.8# Bag • 20# Bag • 40# Bag

Flower'n'Bloom® 3-12-12

Low in Nitrogen, high in Phosphorus and Potash. Aids in developing vigorous root systems and more flowers and fruit. Also excellent as a pre-plant fertilizer for seed or sod.

35% Humus, 7% Humic Acids and micronutrients.

Sizes Available:

8.8# Bag • 20# Bag

Hi-Nitrogen 14-4-9

The "ultimate hybrid" lawn fertilizer designed to feed your lawn and condition the soil. Also works great for general feeding of trees, shrubs and ground cover.

30% Humus, 6% Humic Acids

Sizes Available:

20# Bag • 40# Bag

New!

Tomato'n'Vegetable 8-10-4

Complete fertilizer for all vegetables, fruits and herbs. Contains calcium to help prevent blossom end rot on tomatoes.

35% Humus, 8% Humic Acids, 3.5% Calcium and micronutrients.

Sizes Available:

20# Bag

Premium Specialty Product Line

Premium Palm & Tropical Plant Food 9-3-9

3-4 month Controlled Release Nitrogen formula for all Palms and Tropical plants in the ground or in containers. Micronutrients added to help prevent and correct yellowing, especially for palms grown in arid, alkaline soils.

25% Humus, 5% Humic Acids, Controlled Release Nitrogen, 3% Calcium, 4% Magnesium, 2% Iron and micronutrients.

Sizes Available: 3.5# Pail • 8# Pail • 20# Bag • 40# Bag

Premium Citrus & Avocado Food 8-6-8

Ideal for all citrus, avocado, fruit and nut trees, as well as grape and berry vines.

40% Humus, 8% Humic Acids, Controlled Release Nitrogen, 4% Magnesium, 4% Sulfur, 2% Iron, .05% Copper, micronutrients and soil penetrant.

Sizes Available: 3.5# Pail • 8# Pail • 20# Bag • 40# Bag

Premium Green® Iron – 40% Fe

Designed to prevent and correct Iron Chlorosis in trees, shrubs and lawns. High analysis non-staining iron supplement that is natural and environmentally safe.

40% Iron, 6% Sulfur, 2% Humic Acids and micronutrients.

Sizes Available: 4.5# Pail • 10# Pail

Toss'n'Gro™ Fertilizer 8-8-8

Ideal for hand applications on slopes and hillsides. Also for long-term feeding of container plants.

40% Humus, 8% Humic Acids, slow-release nitrogen, micronutrients and soil penetrant.

Sizes Available: 7# Pail • 40# Bag

Premium Rose Food 6-8-4

Excellent for all Roses, from miniatures to tall climbers, whether in the garden or in containers.

50% Humus, 15% Humic Acids, Controlled Release Nitrogen, 2% Magnesium, 3% Sulfur, 2% Iron, micronutrients and soil penetrant.

Sizes Available: 3.5# Pail • 8# Pail • 20# Bag • 40# Bag

Premium Azalea, Camellia, Rhododendron Food 6-4-4

Excellent for Azaleas, Camellias, Rhododendrons, Gardenias, Clematis and all “acid-loving” plants, in the garden and in containers.

35% Humus, 10% Humic Acids, Controlled Release Nitrogen, 6% Sulfur, 4% Iron, micronutrients and soil penetrant.

Sizes Available: 3.5# Pail • 8# Pail • 20# Bag • 40# Bag

Controlled Release 12-8-8

Designed specifically for orchids, succulents, hanging baskets and all container plants. Also can be used for general landscape feeding.

25% Humus, 5% Humic Acids, Controlled Release Nitrogen and micronutrients.

Sizes Available: 3.5# Pail and 8# Pail (6-8 mo.)
• 40# Bag (3-4 mo.) (4-6 mo.) (6-8 mo.)

Specialty Product Line

Liquid 4-8-2

Liquid formula for use in containers and the garden. Apply with watering cans, hose-end sprayers and fertilizer injection systems.

2% Humic Acids

Sizes Available: Quart Bottle • Gallon Bottle

Planting Tablets 12-8-8

12 month Controlled Release Nitrogen formula in a 7-gram tablet. For placing in planting hole when planting new trees and shrubs. Also use in containers and existing plants. Excellent for water gardens and Bonsai.

20% Humus, 4% Humic Acids and micronutrients.

Sizes Available: 45-count Jar • 200-count Jar

Winterizer 2-10-10

Low Nitrogen, high Phosphorus and Potash, plus micronutrients to be used as last feeding in fall, especially for areas where winters are harsh. Will aid in helping perennials, shrubs, trees and lawns withstand the cold winters and respond vigorously in spring.

40% Humus, 8% Humic Acids and micronutrients.

Sizes Available: 20# Bag
