

# GRO-POWER® FLOWER 'N' BLOOM®

## IMPORTANT INFORMATION

GRO-POWER® FLOWER 'N' BLOOM® 3-12-12 is a low nitrogen, high phosphorus and potash fertilizer. It is clean, with no-odor and is formulated to help develop deep vigorous roots and help develop more flowers and fruits. Potash is added to help resist plant disease. Iron and sulphur have been added to produce a more efficient fertilizer.

The basic material in GRO-POWER® is humus, an odorless composted material that will tend to retain available cations such as calcium and magnesium for the plants in the soil, condition the soil, break up compacted soils and promotes water conservation. Use GRO-POWER® to promote "Nature's Natural Way" and to lessen many of the diseases of plants.

## HOW TO USE GRO-POWER® FLOWER 'N' BLOOM® FOR BEST RESULTS

### AZALEAS, CAMELLIAS, RHODODENDRONS and other ACID LOVING PLANTS:

Feed one (1) tablespoon for each foot of width of plant. Spread evenly around plant and water thoroughly. Start feeding when buds have formed until the plant is finished blooming, at approximately 4 week intervals.

### CITRIC, AVOCADO, FRUIT TREES AND OTHERS:

Feed two (2) tablespoons per each foot of tree height or width. Start feeding monthly when fruit commences to form and continue until fruiting season is over.

### ROSES:

To help promote more and larger blooms, start feeding roses in early fall using two (2) tablespoons of Flower 'N' Bloom® per bush at 4 week intervals through the winter. In spring use regular Gro-Power® 5-3-1 per bag directions.

### PANSIES, MUM AND OTHER FLOWERING ANNUALS AND PERENNIALS:

Sprinkle Flower 'N' Bloom® at the rate of 1 1/2 to 2 lbs. per 100 sq. ft. and water thoroughly. (Be sure to wash any material off the plant leaves.) Feed during the growing season when blooming begins at 4 week intervals. Alternate feeding with Gro-Power®, Gro-Power® Plus or Gro-Power® Controlled Release 12-8-8 per bag directions.

### BEGONIAS, FUCHSIAS, GERANIUMS AND OTHER FLOWERING PLANTS:

Alternate Flower 'N' Bloom® with Gro-Power® or Gro-Power® Controlled Release 12-8-8 monthly, beginning during growing season when blooming begins. Feed one (1) tablespoon per each foot of width of plant and water thoroughly. For container plants, use at least 1/2 the rate.

### SOIL PREPARATION:

Broadcast two to two-half pounds (2 to 2 1/2 lbs.) per 100 sq. ft. (10 feet x 10 feet) of area to be planted and thoroughly work into soil before planting.

Individual plants: Use one (1) level tablespoon for gallon size plants, two (2) tablespoons for five gallon size plant. Sprinkle material in bottom of planting pit and cover with at least one (1) inch of soil. (Do not let material come in direct contact of roots.) For extended feeding use Gro-Power® Planting Tablets per directions on label. NOTE: If tablets are used, use 1/2 the rate of Flower 'N' Bloom®.

**BARE-ROOT ROSES OR TREES:** Use one (1) tablespoon for roses and two (2) tablespoons for trees. Sprinkle in the bottom of planting pit being sure to cover with at least one (1) inch of soil. Plant according to recommendations, then water thoroughly. FOR EXTENDED FEEDING use Gro-Power® Planting Tablets per directions on label. NOTE: If tablets are used, use 1/2 the rate of Flower 'N' Bloom®.

**BULBS:** Use 2 to 2 1/2 lbs. per 100 sq. ft. of Flower 'N' Bloom® and thoroughly work into soil before planting or use 1/2 to 1 Gro-Power® Planting Tablet approximately 2 inches below bulb.

### PROTECTION IN WINTER:

When used throughout fall and winter, Gro-Power® Flower 'N' Bloom® will aid in protecting plants from severe damage because of cold weather. Use Flower 'N' Bloom® every 4 to 6 weeks at the rate of 2 lbs. per each 100 sq. ft. or 2 tablespoons per plant for each one foot of plant height or width.

**Contains no sewage or sludge, animal or poultry waste.**

## GRO-POWER® FLOWER 'N' BLOOM® 3-12-12

with Humus

### Guaranteed Analysis

Total Nitrogen (N) .....	3.00%
3.00% Ammoniacal Nitrogen	
Available Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> ) .....	12.00%
Soluble Potash (K <sub>2</sub> O) .....	12.00%
Sulphur (S) .....	3.50%
Iron (Fe) .....	2.00%
Manganese (Mn) .....	0.05%
Zinc (Zn) .....	0.05%
Derived from ammonium phosphate, muriate of potash and sulphate of potash, compost, and sulfides and oxides of iron, manganese and zinc.	

### ALSO CONTAINS NON-PLANT FOOD INGREDIENT:

7.00% Humic Acids (derived from compost)
