

GRO-POWER®

The fertilizer in this bag is one of the best fertilizers available. GRO-POWER® 5-3-1 is both a fertilizer and soil conditioner. Various soil bacterial strains tend to act upon the soil to condition it and help produce an environment in which the plant can achieve maximum results. Nitrogen, Phosphorous, Potassium, plus micronutrients are all included to help feed the plant. GRO-POWER® 5-3-1 is an odorless product with Humic Acids. Humic Acid may aid in the uptake of micronutrients. Use GRO-POWER® 5-3-1 to promote "Natures Natural Way" and to aid in creating a soil which, with the addition of potash tends to lessen many of the plant diseases.

HOW TO APPLY GRO-POWER® FOR BEST RESULTS

AZALEAS, CAMELLIAS, and other ACID LOVING PLANTS:

small plants 3 tbs. to 1/4 cup
medium plants 1/4 to 1/2 cup
older plants 1 to 2 cups
depending on size of plant
Feed three times a year: early spring, summer and early fall.

CITRUS, AVOCADO, FRUIT, EVERGREEN, BERRY AND GRAPE VINES:

Apply 1/2 lbs. of GRO-POWER® for every inch of caliper of the tree. Work into soil lightly around the drip line and water thoroughly. Keep moist for two to three days, then water normally. Feed every 4 to 6 months.

ROSES:

small to medium plant 3 tbs. to 1/2 cup
medium to large plant 1/2 to 1 cup
extra large plant 1 to 2 cups
Feed once a month during growing season.

PANSIES, MUMS AND OTHER FLOWERING ANNUALS AND PERENNIALS:

Sprinkle GRO-POWER® in the flower bed at 2 1/2 lbs. per 100 sq. ft. (Be sure to wash GRO-POWER® off the plant leaves.) Feed at the same time as azaleas.

TOMATOES AND GARDEN VEGETABLES:

Apply GRO-POWER® as a top application at the rate of 2 1/2 to 3 lbs per 100 sq. foot. Water thoroughly to activate the bacteria. Do not plant seeds until the GRO-POWER® has been watered thoroughly. Feed twice during the growing season.

BULBS:

1 level tbs. 2" below the bulb.

OUTDOOR POTTED PLANTS:

1 gal. container 1 tsp.
5 gal. container 2 tsp.
15 gal. container 1/4 cup

Apply GRO-POWER® every 45 days. Plants in containers should not be overfed and care should be exercised in applying GRO-POWER® in conjunction with other fertilizers.

GRASS AND DICHONDRA LAWNS:

Dichondra 2 lbs. per 100 sq. ft.
All other grass 2 1/2 lbs. per 100 sq. ft.
Immediately after application, water thoroughly, taking care to wash GRO-POWER® off grass blades or other foliage. GRO-POWER® can be applied to the tenderest grass, but do not use as a top-dress on seed.

SOIL PREPARATION:

TO PREPARE SOIL FOR NEW LAWN, FLOWER BEDS AND VEGETABLES, broadcast GRO-POWER® at 1 1/2 to 2 lbs. per 10 sq. ft. and rototill in, to a depth of 4 inches. Water thoroughly and level for seed or plant. GRO-POWER® contains humus and humic acids which promotes seed germination and makes nutrients available for the plant.

POTTING MIX:

Mix thoroughly 8 oz. of GRO-POWER® with 1 cubic foot of planting mix.

BAREROOT:

Apply 2 lbs. in hole, cover with soil then apply 2 tbs. on top in one foot circle, or mix 8 oz. GRO-POWER® per 1 cubic foot of backfill mix.

Contains no sewage or sludge, animal or poultry waste.

GRO-POWER® 5-3-1

GUARANTEED ANALYSIS

Total Nitrogen (N)	5.00%
1.00% Ammoniacal Nitrogen	
4.00% Urea Nitrogen	
Available Phosphoric Acid (P ₂ O ₅)	3.00%
Soluble Potash (K ₂ O)	1.00%
Iron (Fe)	1.00%
Manganese (Mn)	0.05%
Zinc (Zn)	0.05%

Derived from ammonium phosphate, urea, muriate of potash, compost and sulfides and oxides of iron, manganese and zinc.

ALSO CONTAINS NONPLANT FOOD INGREDIENT:

15.00% Humic Acids (derived from leonardite)
