

Hello.

I am pleased to introduce myself as the Director of Huma® Turf & Ornamental following the recent acquisition of Gro-Power® by Huma. **As we embark on this journey to strengthen our new business relationship, I am committed to continuing and enhancing the legacy of excellence that you associate with Gro-Power.**

Before joining Huma in 2011, I spent 25 years growing turf and agricultural crops, including bentgrass sod. Having walked in the shoes of a business owner, I deeply understand your needs and I'm excited to offer you cutting-edge technology, support, and resources to optimize your business. My primary goal is to collaborate closely with you, identifying your challenges and delivering customized solutions to elevate your turf and ornamental business to new heights of success.

I understand the trust you have placed in Gro-Power products, and I want to assure you that Huma is dedicated to carrying forward that legacy. Our team of experts is working diligently to ensure that you continue to receive top-quality solutions for your turf and ornamental needs. The product formulation will remain unchanged, and no products will be eliminated from the lineup. Your

satisfaction remains at the forefront of our priorities as we aim to serve you with excellence.

As part of this transition, we are currently in the process of relocating Gro-Power assets and equipment to our facilities in Arizona. Following the completion of this relocation, our production team will initiate the manufacturing process. Based on our current timeline, we anticipate being able to ship products to you starting late spring to early summer this year. Your patience and cooperation during this period of transition are greatly appreciated. If you have any questions or require assistance, please reach out to us at Info@huma.us.

Thank you for your continued trust and support,

Michael Gardner

Director of Turf & Ornamental
