

**Hello,**

It has been a few weeks since I provided an update, so I felt like it was a good time to discuss where things stand.

Things are still moving forward, and we are getting product registrations completed as well as clearing any other legal hurdles that must be overcome to be able to return the product to the marketplace. We are still optimistic that production can ramp up this summer, making the product more readily available to the market this fall

As product becomes available, we know that many of you may need a W-9 to establish Huma® in your system as a vendor. To facilitate this process, you can download that document [here](#).

Thank you again for your patience and cooperation as we work through this exciting transition. Please feel free to reach out to me if you have any questions or need additional assistance.

**Thank you for your continued trust and support,**

**Michael Gardner**

Director of Turf & Ornamental
